The Director of Naval Intelligence believes that this paragraph should read as follows:

15. The development of Bloc and Western power positions during the next fifteen years will be significantly affected by their relative conventional military capabilities, with or without the accompanying use of atomic weapons. Bloc military forces are being continuously modernized and strengthened, and will continue to pose a serious threat to areas around the Bloc periphery. The West will probably remain superior to the Bloc in quality of weapons, in the application of technology to military uses, and in its ability to control the seas. The West will increase substantially its relative power position if it can develop local military capabilities in key areas around the Bloc periphery and can maintain forces-in-being capable of quick despatch to such areas in case of emergency.
